-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Information Disclosure Statement***

1) The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609.04(a) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

The prior art references recited in Specification paragraph [0015] are to be listed on form PTO-1449, and copies of the recited prior art references provided for review.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2) Claims 14-16, are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 14 recites conditional phrases "if the paper is a printing paper" and "if the paper is a neutral newsprinting paper" rendering the claim indefinite.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3) Claims 1-16, are rejected under 35 U.S.C. 102(b) as being anticipated by Yoshimura (JP 2004-289221), (English version US 2008/0096008 is used in the Office Action).

Claims 1-4, 14: Yoshimura discloses an electrophotographic transfer paper that in addition to pulp contains as a filler a precipitated calcium carbonate/silica complex wherein the surface of precipitated calcium carbonate particles is coated with silica and wherein the solid weight ratio of precipitated calcium carbonate to silica in the complex is in range 30/70 to 70/30 (paragraphs [0015] – [0016]). The filler content is 1-30 percent by weight [0020]. The paper of Yoshimura is of low-density [0021] and is a neutral paper [0039].

Claims 5, 7-9, 15: the average particle size of the precipitated calcium carbonate silica composite is 3.5-20 micro m (Abstract).

Claims 6, 10-13, 16: the precipitated calcium carbonate is of rosette type morphology, spindle shaped particles forming agglomerations [0024].

***Conclusion***
